

The operating system for innovation.

One connected ecosystem for the organizations that back startups and the startups themselves. Each ecosystem adds startups, each startup adds value, and the network only grows stronger.

Efficiency through connection, not fragmentation.

FOR ECOSYSTEMS

Ecosystem OS (EOS)

For angel networks, VCs, accelerators, events, incubators, corporate innovation and more.

Community hosting

AI startup assessment

Dealflow

Monetization

White-Label

Portfolio management

Private events

FOR STARTUPS

Startup OS (SOS)

For the startups themselves. Run the whole company from one workspace, free to start.

HOW IT CONNECTS

One system, both sides of the market.

WHY IT MATTERS

Less distraction,
More focus.

Instead of juggling disconnected tools, everything lives and works together in one system, for ecosystems and the startups they support.

GLOBAL COMMUNITY

20+

client ecosystems live

4,500+

startups on the platform

550+

investors connected
