

Pynn

The Intelligence Layer for
Early Stage Innovation

pynn.ai

The connection between
early-stage founders, and
early-stage investors,
is painfully....

INEFFICIENT

Founders:

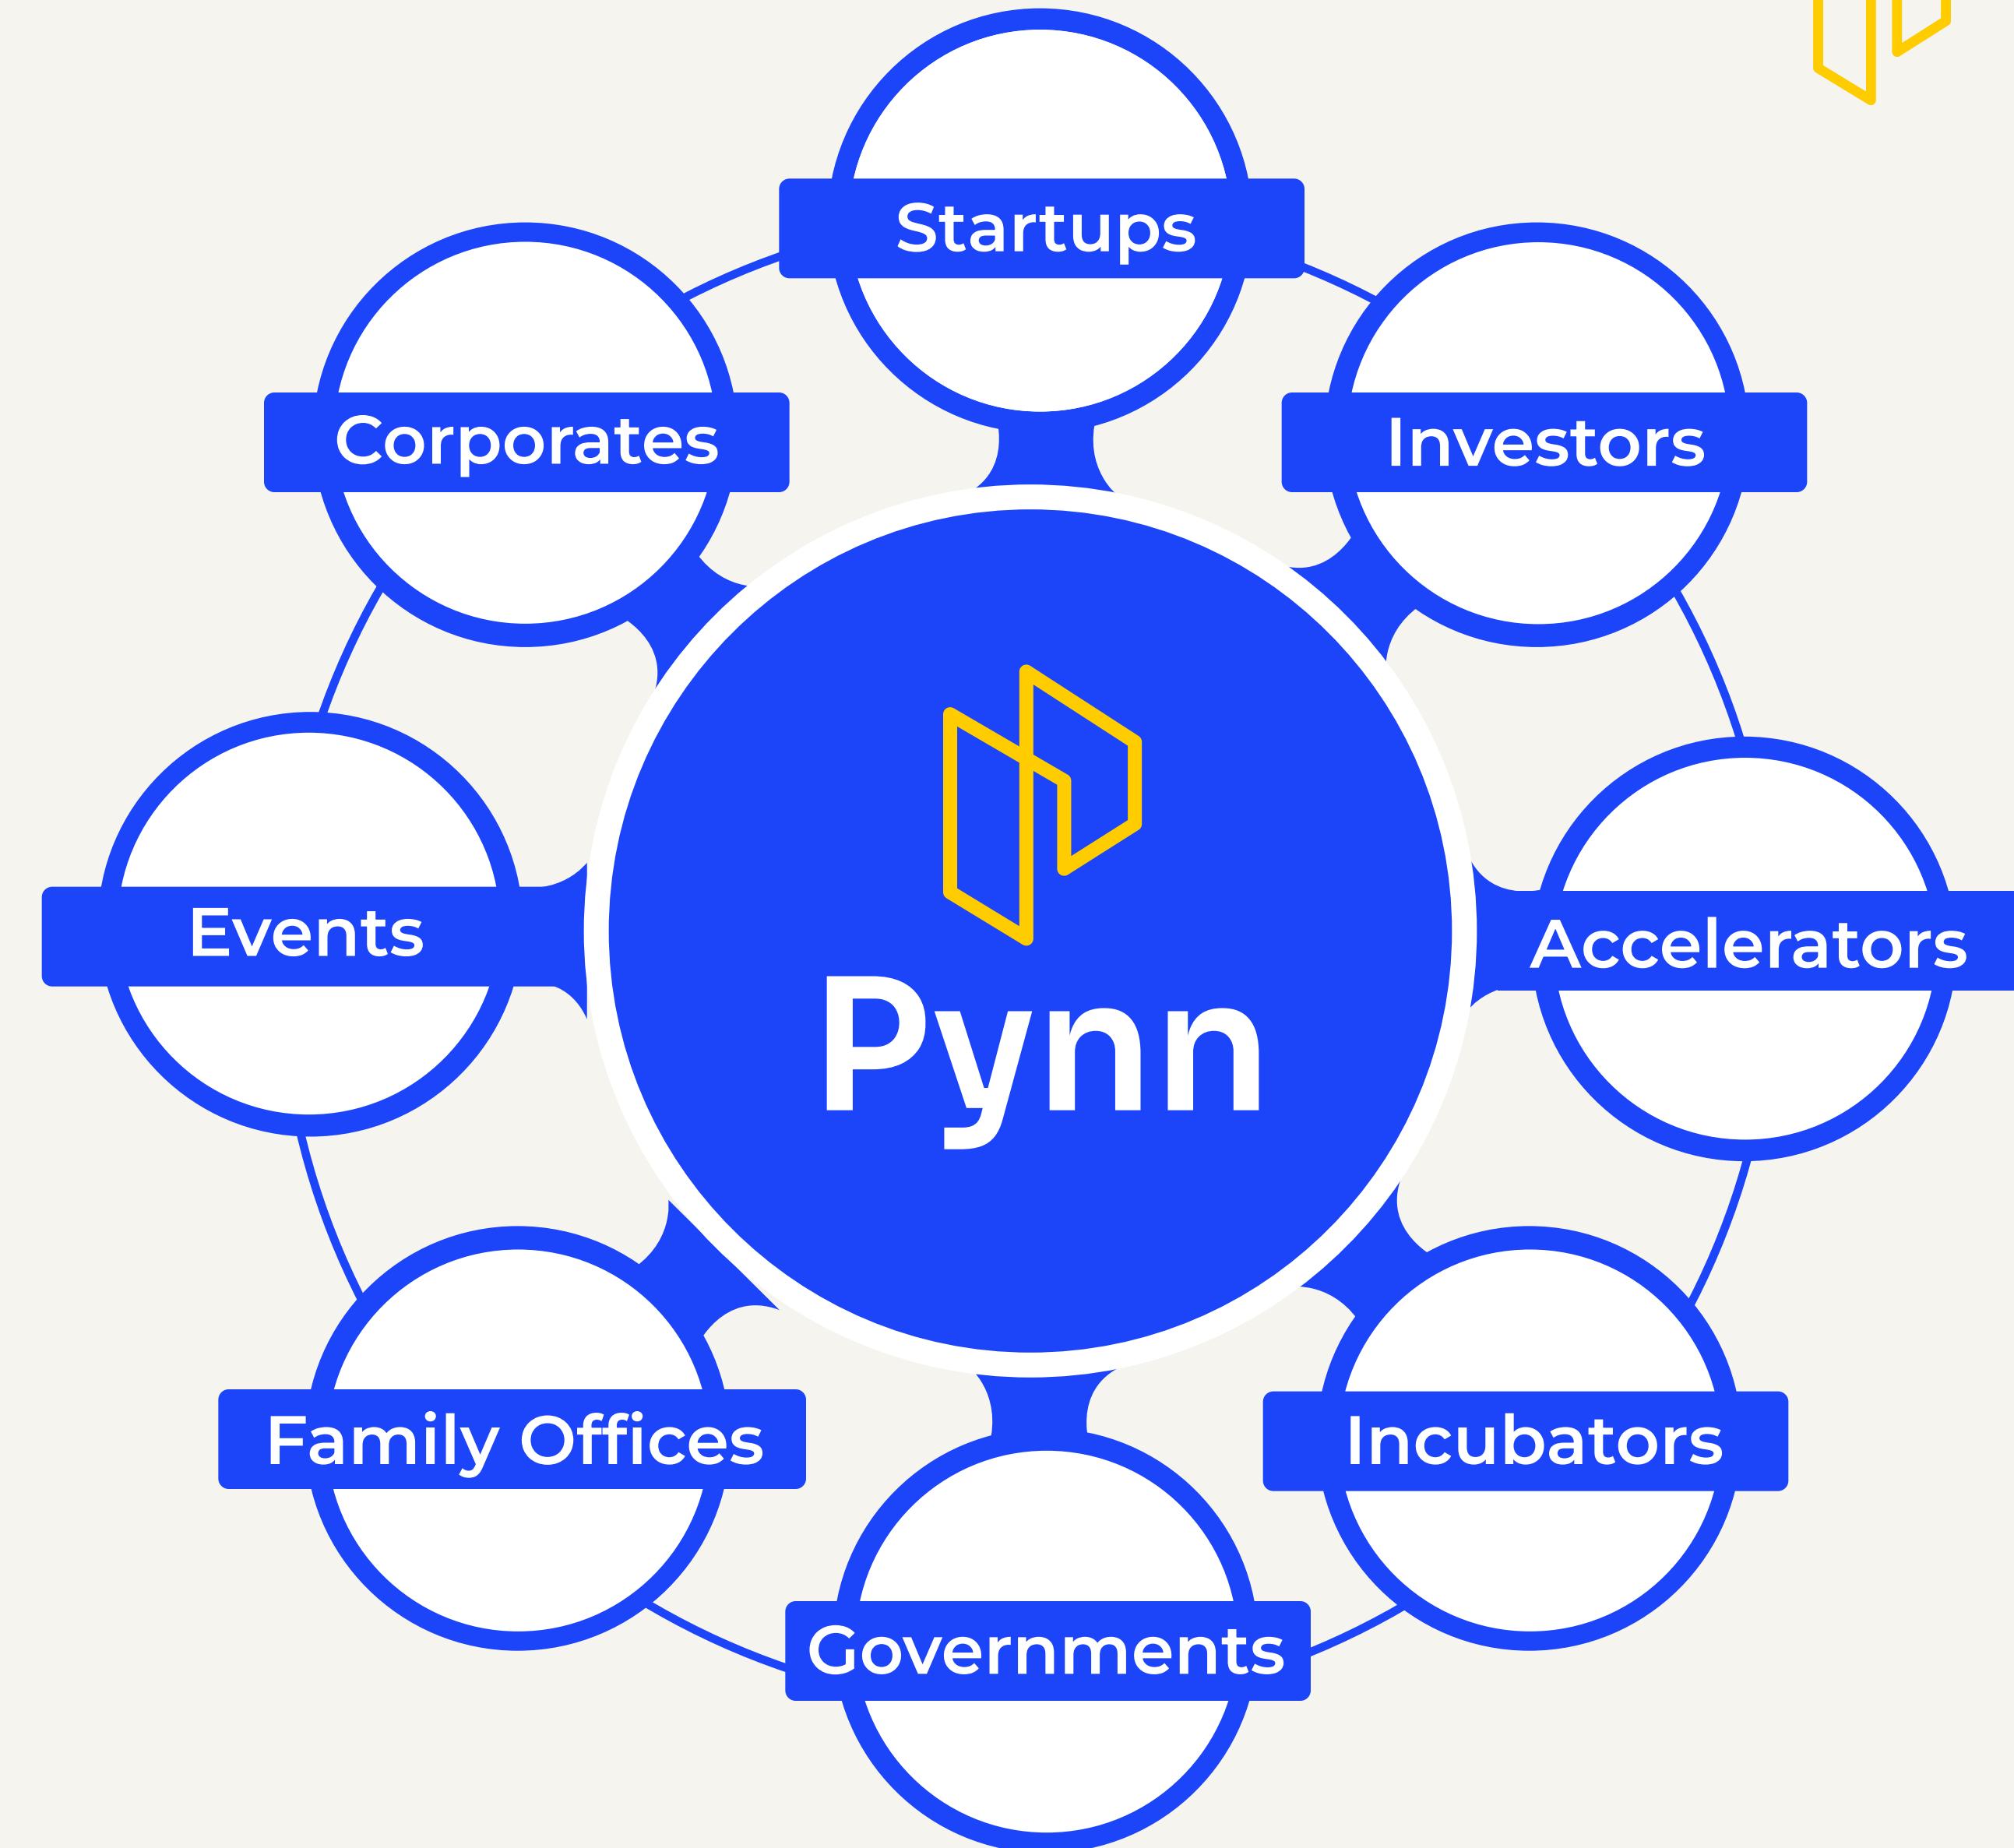

- Contact hundreds of investors
- Spend 6 months+ per round
- Distracted from their core business
- Frustration, stress & more....

Investors:

- Are spammed by startups
- ~90%+ are outside the thesis
- We all do similar DD on startups
- Extremely time consuming
- No singular software platform solution

Pynn offers a **structured & intelligent white-label** solution.

Pynn does a lot:

We **assess** ✓

Evaluate startups automatically, tailored to your thesis.

Access in-depth evaluations on team, product, market & more, with next step recommendations.

We **promote** ✓

Via our marketplace we:

- Showcase startups to key stakeholders
- Hold monthly pitch events (on- and off-line)
- Feature 3rd-party service providers
- Showcase events

We **organize** ✓

Manage your pipeline in our CRM with automated actions, notes, contacts, and progression analytics. Structured processes gives you full control.

We **store** ⏳

Store all portfolio documents in our built-in data room securely.

Cap tables, financials, shareholder agreements, contracts & more.

2026 Roadmap

- Portfolio management
- Event organising
- Multiple events on one account
- Voting system
- Video Meetings
- Calendar support

We are the intelligence layer for the **early-stage innovation ecosystem**
